### The Sign of a Reliable Dealer and the World's Best Gasoline

Conscientious dealers sell SOCONY because they know the difference between the various liquids sold under the general name, "gasoline," and a straight-distilled, homogeneous product-SOCONY Gasoline!

They know that "blended" gasoline is a poor "buy" for their customers at any price!

They know that the lighter fraction goes off first, leaving a heavy residue which necessitates carburetor re-adjustments and is one cause of cylinder carbon!

And because they know these things and because they want to hold their trade permanently, conscientious dealers display the SOCONY sign and sell you—

### CAUTION

The Red, White and Blue SOCONY sign is displayed by all dealers authorized to sell SOCONY Motor Gasoline. Beware of misrepresentation. If it isn't SOCONY it isn't the Standard Oil Company of New York's Gasoline. Look for the weekly Bulletins containing list of SOCONY dealers.
